Sticks dry

Innovative packaging

At Verstegen we are proud of our sticks. They can be conveniently filled in any desired weight from 4 grams upwards, are sealed on three sides, available in a width from 20 mm to 55 mm and foreseen with an easy opening. We only use food grade print and it is possible to use an interlayered foil. Interlayered foil can be printed so design possibilities are endless.

Interested? Please find examples of possibilities below:

Weight: >4 grams
Width: 20 mm
Length: Max 20 mm
Material: Plastic (PET/EVOH/PE)
Code print: Thermal transfer food grade print (black print only)
Design: Full colour as a possibility and depending on the length of the stick, printing is possible up to 3 lines and 40 characters per line
Opening: Easy opening

Weight: >4 grams

Code print: Thermal transfer food grade print (black print only)
Design: Full colour as a possibility and depending on the length of the stick, printing is possible up to 3 lines and 40 characters per line
Opening: Easy opening

Weight: >4 grams
Width: 55 mm
Length: Max 20 mm
Material: PET/EVOH/PE
Code print: Thermal transfer food grade print (black print only)
Design: Full colour as a possibility and depending on the length of the stick, printing is possible up to 3 lines and 40 characters per line
Opening: Easy opening

Sticks liquid

A responsible choice

Liquid products can be packed in small or large sticks, varying in a width from 55 mm to 111 mm with a content of 5 ml to 2000 ml. Sealed on three sides, available in printed or transparent foil and easy to open with our easy opening technique. This innovative way of packaging liquids also keeps the impact on the environment down to a minimum because after using there is less waste of packaging materials. We only use food grade print and it is possible to use an interlayered foil. Design possibilities are endless.

Ceva box

Collapsible

-
- Inner single use bag
 - 1000 liter
 - When collapsed, 5 export boxes fit onto a single pallet
 - Only suitable for cold liquid products
-

Stainless steel container

Bulk packaging directly connected to your production line

-
- Possible to directly connect it to your production line with just a few technical modifications
 - Available in 400 L, 800 L, 900 L and 1000 L
 - Stainless steel 304
-

Export box

Ideal for goods in plastic bags

-
- Hard plastic, pallet-sized collecting box
 - Ideal for goods in plastic bags
 - When collapsed, five export boxes fit onto a single pallet
 - Available in 80 cm x 60 cm and 100 cm x 120 cm
-

Multi box

Mega drum with cap

-
- Steel framed and attached to a fixed metal and plastic pallet
 - This HDPE pack is for single use
 - Only suitable for liquid products
 - Available in 1000 L
-
